For the time being, we will be combining SPEC and the Complete College Advisory Committee to work towards our CCA goals for the next year. SPEC members will be divided up into seven subcommittees to be led by CCA Committee members. People from all over campus also volunteered for these subcommittees.

Subcommittees have the option of reaching out to others on campus who would be assets to certain groups. Remember to reach out to those who have expertise in the areas that your committee is working on.

We must be realistic and know that we cannot complete/achieve all of these goals within the next year. We can, however make significant progress on many of them.

The CCA Advisory Committee will meet periodically and report on the progress being made towards each of the seven goals.

SPEC will meet separately to discuss the Efficiency Plan.

Dr. Blanding's comments: We, as an institution, will not be able to make all changes that we propose. We will change what we can. When road blocks come up, make them known so that we can work to resolve the issues. We are remaking our institution.
